

TYPE 2002

The large sweeper

The large sweeper is a mounted sweeper designed particularly for sweeping and cleaning large areas of dirt. The special attribute of the machine is that it is not only particularly large, but also very robust. This is why the large sweeper is used particularly for large backyards and company premises as well as for heavy soiling, as it can clean large areas rapidly with its large collection container.

CHARACTERISTICS

- ✓ fully hydraulic drive
- ✓ sweeper with collecting container
- ✓ hydraulic emptying
- ✓ quick attachment by using fork attachment
- ✓ hydraulic quick-release fasteners ST3
- ✓ maintenance-free
- ✓ simple operation
- ✓ oscillating sweeping roller suspension and level compensation
- ✓ fully encapsulated (low-dust)
- ✓ 4x double wheel

SPECIAL FEATURES

- ✓ particularly robust
- ✓ ideal for various types of waste, large areas and heavy soiling
- ✓ large collecting container
- ✓ double heavy-duty wheels for heavy-duty use
- ✓ very effective for steel plants, recycling yards and waste disposal plants
- ✓ especially for large backyards and company premises as well as for heavy soiling
