

MTS-KEHRMASCHINEN

About us

MTS-Kehrmaschinen is a family-owned company established in 1992 and has a high level of industry-specific experience. With dedication and expertise, we develop and manufacture mounted sweepers for a wide range of customers and dealers throughout Europe. Our focus is always on quality, collaboration, customer orientation and foresight, in accordance with our motto "together for a cleaner tomorrow".

Our special features

- ✓ quality feature „Made in Germany“
- ✓ universal application
- ✓ designed for a wide range of sectors
- ✓ customized machines
- ✓ efficient cleaning
- ✓ attachment in seconds
- ✓ easy operation
- ✓ maintenance-free machines
- ✓ floating position for maximum balance
- ✓ oscillating sweeping roller suspension
- ✓ almost dust-free sweeping
- ✓ numerous special equipment options
- ✓ **NEW:** custom-made hydraulic hoses

Mounted sweepers for

Forklift

Wheel loader

Skid steer loader

Tractor

SWEEPERS WITH HYDRAULIC CONNECTION

e.g. Special equipment:
Side broom, water spraying device

■ Type 2001: The industrial sweeper

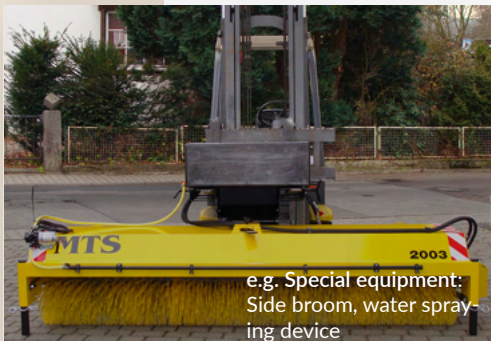

Extremely powerful mounted sweeper with collecting container for specified carrier vehicle with hydraulic connection. The machine is maintenance-free and equipped with a fully hydraulic drive. Suitable for ideal indoor and outdoor cleaning, especially in the industrial sector.

e.g. Special equipment:
Side broom

■ Type 2002: The large sweeper

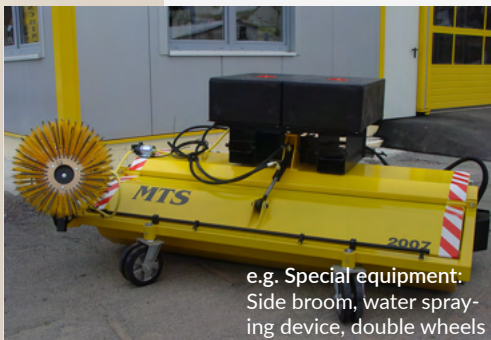

Extremely powerful mounted sweeper in reinforced design with extensive collecting container for specified carrier vehicle with hydraulic connection. The machine is maintenance-free and equipped with a fully hydraulic drive. Suitable for ideal indoor and outdoor cleaning. Especially designed for large and heavy-duty applications.

e.g. Special equipment:
Side broom, water spraying device

■ Type 2003: The outdoor use sweeper

Extremely powerful mounted sweeper without collecting container for specified carrier vehicle with hydraulic connection. The machine is maintenance-free and equipped with a fully hydraulic drive. Predestined for heavily soiled outdoor areas and for sweeping snow and leaves.

e.g. Special equipment:
Side broom, water spraying device, double wheels

■ Type 2007: The street sweeper

Combi machine with hydraulically folding collecting container for specified carrier vehicle with hydraulic connection. The machine is maintenance-free and equipped with a fully hydraulic drive. Suitable for ideal indoor and outdoor cleaning as well as building, civil and road construction.

e.g. Special equipment:
Side broom

■ Type 2008: The construction site sweeper

Combi machine in reinforced design with hydraulically folding collection container for specified carrier vehicle with hydraulic connection. The machine is maintenance-free and equipped with a fully hydraulic drive. Suitable for ideal indoor and outdoor cleaning as well as for the construction site.

* For dimensions, weights and other data, see "Technical data" (page 4).

■ **Type 1606: The sidewalk sweeper**

Cost-effective and very compact mounted sweeper with collecting container for specified carrier vehicle with hydraulic connection. The machine is maintenance-free and equipped with a fully hydraulic drive. Suitable for ideal off-road cleaning in outdoor areas. Especially designed for narrow areas and for cleaning bike paths and sidewalks.

■ **Type 1804: The small sweeper**

Compact mounted sweeper with collecting container for specified carrier vehicle with hydraulic connection. The machine is maintenance-free and equipped with a fully hydraulic drive. Ideal for indoor and outdoor cleaning. Cost-effective due to its efficient equipment, but absolutely sufficient for medium-duty soiling.

■ **Type 2306 Agrar: The agriculture sweeper**

Extremely cost-effective combi machine with removable collecting container for the most common tractor types with hydraulic connection. The machine is maintenance-free and equipped with a fully hydraulic drive. Especially designed for use in agriculture and equipped with front or rear three-point linkage.

SWEEPERS WITHOUT HYDRAULIC CONNECTION

■ **Type 1505: The sweeper with drive unit**

Self-propelled mounted sweeper with collecting container for various carrier vehicles without hydraulic connection. The machine is maintenance-free. Suitable for ideal indoor and outdoor cleaning. Especially maneuverable and suitable for narrow and narrow-angled areas due to the movable pick-up.

■ **Type 2020: The sweeper with self-propelled drive**

Self-propelled mounted sweeper with collecting container for various carrier vehicles without hydraulic connection. The machine is maintenance-free. Ideal for indoor and outdoor cleaning. Also perfect for large and heavy carrier vehicles due to the machine's rigid mounting.
