

MTS KEHRMASCHINEN
together for a cleaner tomorrow

TYPE 1505

The sweeper with drive unit

Type 1505 is a self-propelled sweeper. This means that no hydraulic connection is required. As soon as the wheels of the sweeper are in motion, the sweeping roller and the side broom (if attached) are also driven. In short, the carrier vehicle is only needed to move the sweeper. It can therefore be easily attached to a wide variety of carrier vehicles, including e-vehicles.

EIGENSCHAFTEN

- ✓ self-propelled
- ✓ sweeper with collecting container
- ✓ cable emptying
- ✓ quick attachment by using a fork mount
- ✓ maintenance-free
- ✓ simple operation
- ✓ oscillating sweeping roller suspension and level compensation
- ✓ fully encapsulated (low-dust)
- ✓ 1x heavy-duty wheel
- ✓ 2x drive wheel

BESONDERHEITEN

- ✓ own drive through drive wheels
- ✓ quick and easy attachment to forklifts
- ✓ also ideal for electric forklifts
- ✓ suitable for indoor use
- ✓ particularly maneuverable due to movable pick-up
- ✓ particularly suitable for narrow and narrow areas
- ✓ for a wide variety of carrier vehicles, as it does not require a hydraulic connection
