

TYPE 2020

The sweeper with self-propelled drive

Type 2020 is - like [type 1505](#) - a self-propelled sweeper. This means that no hydraulic connection from the carrier vehicle is required, as the sweeping roller and the side broom (if attached) are driven by the movement of the drive wheel. Therefore, it has similar advantages to type 1505, but is based on the features of our [industrial sweeper](#). This makes it perfect for heavy duty cleaning and different carrier vehicles.

CHARACTERISTICS

- ✓ self-propelled
- ✓ sweeper with collecting container
- ✓ cable emptying
- ✓ quick attachment by using a fork mount
- ✓ maintenance-free
- ✓ simple operation
- ✓ oscillating sweeping roller suspension and level compensation
- ✓ fully encapsulated (low-dust)
- ✓ 2x heavy-duty wheel
- ✓ 1x drive wheel

SPECIAL FEATURES

- ✓ own drive through drive wheel
- ✓ sturdy construction
- ✓ large and stable mounting
- ✓ fork attachment as standard equipment
- ✓ suitable for large and heavy carrier vehicles
- ✓ also ideal for electric carrier vehicles
- ✓ suitable for indoor and outdoor use
- ✓ for a wide range of carrier vehicles, as it does not require a hydraulic connection

CARRIER VEHICLES

For the sweeper with self-propelled drive

Forklift

Wheel loader

Skid steer loader

Tractor

Other carrier vehicles on request.

TECHNICAL DATA
